EVERY BODY KNOWS IT

When You Wear a
Tailor Made Suit

There is a peculiar distinction in the fit and workmanship which puts it in a class by itself, and the wearer in a class by himself, with other tailor garbed men.

When we make it your suit is made to fit you, and not a wooden dummy. No two forms are exactly alike, hence no suit patterned after a dummy will give you an exact fit, such as you get when we take your individual measurements.

EASY TO PROVIDE FOR YOUR OLD AGE

Young Man Can Double Income by Middle Life.

FIVE DOLLARS EACH WEEK.

In Twenty-eight Years Principal Will Amount to \$17,779.22 and Income From This Sum Invested in Six Per Cent Mortgages Will Be Upwards of \$20 Weekly.

This is not a get-rich-quick scheme. It is simply a plain statement of how any industrious young man who sets about it early enough can double his income by middle life simply through \$5.00 weekly savings and wise investment of them from time to time.

Let us assume that you are in your twenties and that you are earning \$20 a week, \$1,040 a year.

In order to equal that income through 6 per cent investments you would need a capital of about \$17,300.

Here is how you can do it before you have passed your prime:

Suppose you open a savings account in a bank which pays 4 per cent interest on savings, compounded semi-annually.

Save and deposit in the bank \$5 every week.

Whenever your principal and interest equal or exceed \$1,000 draw out that sum and invest it in a first mortgage paying 6 per cent a year payable semi-annually. Likewise deposit your mortgage interest in your savings account, continue to withdraw and invest whenever your savings account reaches the \$1,000 mark.

In 28 years your principal will amount to \$17,779.22 and your income

DO NOT CARRY YOUR MONEY WITH YOU.

You can't spend what you do not have. Money in the pocket burns. It is easy to say "no" to some alluring window or appealing advertisement when you have no money with you, but when the purse is full, how hard to turn away! You can't go if you haven't the price of a ticket; but how much better to stay at home when you have a ticket with you! To carry money around and be able to say "no" to the many opportunities that appeal to you to spend is to develop character, resisting power, reserve and strength. It means that you know yourself and can conquer yourself. But until you are strong enough to say "no" and stick to it, you had better let the bank do the resisting for you, for this is what banks are for. You can't spend money while it is in a bank.

from this sum invested in good 6 per cent mortgages will be upwards of \$20 a week. This is how it figures out: \$5.00 per week deposited in bank at 4 per cent per annum compounded semi-annually will amount to \$1,123.89 in four years.

You take out \$1,000 and invest it in a first mortgage at 6 per cent. Balance on Savings Account, \$123.89.

In seven years the amount in the savings bank will be \$1,154.89. Another \$1,000 is taken out and invested leaving \$154.89 remaining.

At each period of nine and one half years, eleven and one half years, thirteen and one half years, fifteen and one half years, seventeen years, eighteen and one half years, nineteen and one half years, twenty-one years, and each year until the twenty-eighth year one thousand is invested. Seventeen thousand dollars will have been invested in mortgages, and a balance of \$779.00 will be remaining in the bank at the end of the twenty-eighth year.

This amount, at 6 per cent interest, yields \$1,066.92 a year, or \$20.51 a week.

The Saturday Evening Post a few years ago gave an interesting calculation that if a man whose income remains the same year after year will deposit one-third his income each month in a savings bank that pays four per cent, he will be able to retire at the end of thirty-five years, and thereafter he or his heirs will receive the full amount of his income.

If he will steadily deposit one-quarter of his income in the same way he will be able to retire on full pay at the end of forty-one years.

A fifth of his income saved and deposited in this way, will enable him to stop work on full income at the end of forty-six years, while a deposit of one-tenth of his income will retire him at the end of the sixty years.

To be able to retire on half income as a result of this kind of steady saving is easier. This can be achieved in twenty-four years by the deposit of one-third of the wages in a savings bank each month; in twenty-eight years by the deposit of one-fourth of the wages; in thirty-two years by the deposit of one-fifth of the income, and forty-five years by the steady saving of one-tenth of the wages.

The nation-wide campaign which the American Bankers' Association is conducting encourages systematic saving and wise spending of money through the keeping of a budget of private expenses.

Up with the flag, and keep it there.

DISPLACEMENT OF HORSES BY TRACTORS.

In investigating the value of tractors from the farmer's standpoint, the specialists of the department of agriculture recently obtained from over 400 owners of tractors in Illinois, reports as to the number of horses that the tractors had enabled them to do away with in farm work. Briefly, the results of these investigations are as follows: To date, the tractor has not displaced horses to extent commonly expected by purchasers, but its greatest advantage lies in the fact that it does the heavy work quickly and thus completes it within the proper season, since it places at the farmer's command a large amount of power when needed.

To a certain extent the tractor does displace horses, but only in about two thirds of the cases where it is used on the same number of acres previously farmed. In these instances the horses displaced averaged four and represented slightly less than fifty per cent of the cost of the tractor outfit. In the corn belt, horses are seldom displaced on farms where the average tilled acreage per horse is 30 or more.

LEGAL NOTICES.

NOTICE OF SHERIFF'S SALE IN FORECLOSURE.

By virtue of an execution in foreclosure duly issued by the clerk of the circuit court for Malheur county and state of Oregon, dated the 16th day of June, 1916, in a certain action in the Circuit court for said county and state wherein Nicholas Kries, as plaintiff, recovered judgment against W. H. Doolittle and Bessie Doolittle, husband and wife, J. H. Cook, trustee, Ella M. Sproul and J. J. Burbridge as defendants, for the sum of three thousand four hundred fifty dollars, with interest thereon from May 7, 1916, at the rate of 8 per cent per annum; and the further sum of three hundred fifty dollars attorneys fees; and the further sum of twenty-four and 60-100 dollars costs;

Notice is hereby given, That I will on the 22nd day of July, 1916, at the hour of 1:30 in the afternoon of said day at the main entrance door of the Court House in Vale, Malheur county, Oregon, sell at public auction to the highest bidder or bidders for cash, the following described real property, to-wit:

The south half of the northwest quarter of section twenty-four, township eighteen south, range forty-six E. W. M. in Malheur county, Oregon, together with all water rights appurtenant thereto;

Taken and levied upon as the property of the said above named defendants, W. H. Doolittle, Bessie Doolittle, J. H. Cook, trustee, Ella M. Sproul and J. J. Burbridge, or as much thereof as may be necessary to satisfy the said judgment in favor of Nicholas Kries and against the said above named defendants, with interest thereon, together with all costs and disbursements that have or may accrue.

Dated at Vale, Oregon, this 17th day of June, 1916.

BEN. J. BROWN, Sheriff.

By ROSS A. SOWARD, Deputy.

First publication June 22, 1916; last publication July 20, 1916.

IF YOU are in doubt which bank to patronize, it's because you don't know which renders the best services to its patrons

THE FIRST NATIONAL BANK OF OREGON

offers the kind of services you need and want.

Capital and Surplus \$100,000.00
"A Good Bank in a Good Country"

THE UNIVERSAL INSTRUMENT

Thirty years ago the telephone was a luxury. Today, through personal initiative and private enterprise, it has become a necessity within the reach of everybody. Where once a business had but one telephone with a limited talking range, today that business has service with a range three-quarters of a continent broad, and every branch of every business is linked to every other by an intercommunicating telephone system.

The telephone has earned its responsible place and there are now 8,000,000 Bell telephones in this country, over which go 26,000,000 talks daily.

Every Bell Telephone is a Long Distance Station.

Malheur Home Telephone Co.

Koveralls Keep Kids Kleen

Practical, Healthful, Economical Garments for Small Children.

Practical. Because they are made in one piece, and can be slipped on or off instantly. They fit and look well, and yet are loose and comfortable in every part.

Healthful. Far superior to bloomers. No tight elastic bands to stop free circulation of blood and retard freedom of motion.

Economical. Having wear on good clothes—saving washing—so well made they are outgrown long before they are worn out.

75c KOVERALLS A NEW SUIT FREE IF IT RIPS

THE SUIT Reg. U.S. Pat. Off.

Made in high neck with long sleeves, or Dutch neck and elbow sleeves. Made of genuine indigo dyed blue denim, or blue and white hickory stripes for all the year wear, and in lighter weight fast color material in dark blue, cadet blue, tan or dark red for summer wear. All garments trimmed with fast-color calais. Sizes 1 to 8 years. Awarded the Grand Prize at P. P. I. E.

Look for the Two Horse Label, none genuine without it. If your dealer cannot supply you, we will send them, all charges prepaid on receipt of price, 75c per suit.
